

General Adult Total Parenteral Nutrition [976]

ADULT TOTAL PARENTERAL NUTRITION

General

Labs

Labs Once

<input type="checkbox"/> Comprehensive metabolic panel	Once For 1 Occurrences
<input type="checkbox"/> Magnesium	Once For 1 Occurrences prior to starting parenteral nutrition
<input type="checkbox"/> Phosphorus	Once For 1 Occurrences prior to starting parenteral nutrition
<input type="checkbox"/> Prealbumin level	Once For 1 Occurrences prior to starting parenteral nutrition
<input type="checkbox"/> Triglycerides	Once For 1 Occurrences

Labs Repeat - All Facilities Except HMSJ

<input type="checkbox"/> Comprehensive Metabolic Panel	AM draw repeats, Starting S+7 For 2 Occurrences
<input type="checkbox"/> Phosphorus	AM draw repeats, Starting S+7 For 2 Occurrences
<input type="checkbox"/> Magnesium level	AM draw repeats, Starting S+7 For 2 Occurrences
<input type="checkbox"/> Prealbumin	AM draw repeats, Starting S+2 For 2 Occurrences
<input type="checkbox"/> Triglycerides	AM draw repeats, Starting S+2 For 2 Occurrences

Labs Repeat - HMSJ Only

<input type="checkbox"/> Comprehensive Metabolic Panel	AM draw repeats, Starting S+1 For 3 Occurrences
<input type="checkbox"/> Phosphorus	AM draw repeats, Starting S+1 For 3 Occurrences
<input type="checkbox"/> Magnesium level	AM draw repeats, Starting S+1 For 3 Occurrences
<input type="checkbox"/> Prealbumin	Every Monday
<input type="checkbox"/> Triglycerides	Every Monday
<input type="checkbox"/> Hepatic function panel	Every Monday

Nutritional Services Consult

TPN

Pharmacy Consults (Single Response) (Selection Required)

<input type="checkbox"/> Pharmacy consult to manage TPN therapy	STAT, Until discontinued, Starting S Enteral Nutrition: Indication: Location of venous access: Is patient volume restricted:
<input type="checkbox"/> Pharmacy consult to monitor and provide recommendation ONLY for TPN therapy	STAT, Once For 1 Occurrences Enteral Nutrition: Indication: Location of venous access: Is patient volume restricted: Instructions to pharmacy: Physician contact number:
<input type="checkbox"/> No pharmacy TPN consult needed	STAT, Once For 1 Occurrences

Pharmacy Consults (Single Response) (Selection Required)

<input type="checkbox"/> Pharmacy consult to manage TPN therapy	STAT, Until discontinued, Starting S Enteral Nutrition: Indication: Location of venous access: Is patient volume restricted:
<input type="checkbox"/> No pharmacy TPN consult needed	STAT, Once For 1 Occurrences

Pharmacy Consult (Single Response)

Pharmacy consult to monitor and provide recommendation ONLY for TPN therapy

STAT, Once For 1 Occurrences
Enteral Nutrition:
Indication:
Location of venous access:

Premixed TPN solutions (CLINIMIX) HMSJ Only

Clinimix Premix TPN Solutions (Single Response)

- | | |
|---|---|
| <input type="checkbox"/> amino acids 4.25%-dextrose 5%- lytes (CLINIMIX E) with MVI and trace | intravenous, continuous TPN, S at 9:00 PM |
| <input type="checkbox"/> amino acids 5%-dextrose 20%- lytes (CLINIMIX E) with MVI and trace | intravenous, continuous TPN, S at 9:00 PM |
| <input type="checkbox"/> amino acid 5 %-dextrose 20 % (CLINIMIX) 2,000 mL with multivitamin 10 mL, multitrace elements-5 concentrate (MTE-5 Concentrate) 1 mL | intravenous, nightly |

Lipids (Single Response)

- | | |
|---|---|
| <input type="checkbox"/> fat emulsion-olive-soy-lipid (CLINOLIPID) 20% infusion | 250 mL, intravenous, 3 times weekly at 2100 |
|---|---|

<input type="checkbox"/> fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion	250 mL, intravenous, 3 times weekly at 2100
---	---

Premixed TPN solutions (CLINIMIX) HMSTC

<input checked="" type="checkbox"/> Adult Custom Clinimix TPN	intravenous, continuous TPN, S at 9:00 PM
---	---

Lipids (Single Response)

<input type="checkbox"/> fat emulsion-olive-soy-lipid (CLINOLIPID) 20% infusion	250 mL, intravenous, 3 times weekly at 2100
<input type="checkbox"/> fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion	250 mL, intravenous, 3 times weekly at 2100
<input type="checkbox"/> soybean oil (INTRAlipid) 20% infusion	intravenous, nightly

TPN (HMSTJ Only)

TPN Solutions (Single Response)

<input type="checkbox"/> Adult Standard Clinimix TPN	intravenous, continuous TPN, S at 9:00 PM hang D10 if TPN is interrupted
<input type="checkbox"/> Adult Custom Clinimix TPN	intravenous, continuous TPN, S at 9:00 PM hang D10 if TPN is interrupted
<input type="checkbox"/> Adult Custom Central TPN	intravenous, for 24 Hours, continuous Indication:
<input type="checkbox"/> Adult PERIPHERAL TPN	intravenous, for 24 Hours, continuous Indication:
<input type="checkbox"/> Adult CYCLIC CENTRAL TPN	intravenous, cyclic TPN - see admin instructions, S at 9:00 PM Indication:
<input type="checkbox"/> Adult CYCLIC PERIPHERAL TPN	intravenous, cyclic TPN - see admin instructions, S at 9:00 PM Indication:

Lipids (Single Response)

<input type="checkbox"/> fat emulsion-olive-soy-lipid (CLINOLIPID) 20% infusion	250 mL, intravenous, 3 times weekly at 2100
<input type="checkbox"/> fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion	250 mL, intravenous, 3 times weekly at 2100

TPN (HMW Only)

TPN Solutions (Single Response)

<input type="checkbox"/> Adult Standard Clinimix TPN	intravenous, continuous TPN, S at 9:00 PM
<input type="checkbox"/> Adult Custom Clinimix TPN	intravenous, continuous TPN, S at 9:00 PM
<input type="checkbox"/> Adult Custom Central TPN	intravenous, for 24 Hours, continuous TPN, S at 9:00 PM Indication:

Lipids (Single Response)

<input type="checkbox"/> fat emulsion-olive-soy-lipid (CLINOLIPID) 20% infusion	250 mL, intravenous, 3 times weekly at 2100
<input type="checkbox"/> fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion	250 mL, intravenous, 3 times weekly at 2100

Adult TPN - NOT HMSTJ, HMTW, HMSTC

Adult TPN (Single Response)

<input type="checkbox"/> Adult Central TPN	intravenous, for 24 Hours, continuous TPN, S at 9:00 PM Indication:
<input type="checkbox"/> Adult Peripheral TPN	intravenous, for 24 Hours, continuous TPN, S at 9:00 PM Indication:
<input type="checkbox"/> Adult CYCLIC Peripheral TPN	intravenous, cyclic TPN - see admin instructions, S at 9:00 PM Indication:
<input type="checkbox"/> Adult CYCLIC Central TPN	intravenous, cyclic TPN - see admin instructions, S at 9:00 PM Indication:

Lipids (Single Response)

<input type="checkbox"/> fat emulsion-olive-soy-lipid (CLINOLIPID) 20% infusion	250 mL, intravenous, 3 times weekly at 2100
<input type="checkbox"/> fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion	250 mL, intravenous, 3 times weekly at 2100

Adult TPN - HMTW Only (Single Response)**() Adult Central TPN + Fat Emulsion**

Adult CENTRAL TPN intravenous, for 24 Hours, continuous TPN, S at 9:00 PM
Indication:

 Lipids (Single Response)

fat emulsion-olive-soy-lipid (CLINOLIPID) 250 mL, intravenous, 3 times weekly at 2100
20% infusion

fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion 250 mL, intravenous, 3 times weekly at 2100

() Adult Peripheral TPN + Fat Emulsion

Adult PERIPHERAL TPN intravenous, for 24 Hours, continuous TPN, S at 9:00 PM
Indication:

 Lipids (Single Response)

fat emulsion-olive-soy-lipid (CLINOLIPID) 250 mL, intravenous, 3 times weekly at 2100
20% infusion

fat emulsion-MCT-olive-soy-fish (SMOFlipid) 20% infusion 250 mL, intravenous, 3 times weekly at 2100

() Adult Central TPN WITHOUT Fat Emulsion

intravenous, for 24 Hours, continuous TPN, S at 9:00 PM
Indication:

() Adult Peripheral TPN WITHOUT Fat Emulsion

intravenous, for 24 Hours, continuous TPN, S at 9:00 PM
Indication:

dextrose 10% for Disruption of TPN Therapy

Start 10% dextrose IV during any interruption in TPN at previous TPN rate up to a MAXIMUM rate of 40 mL/hr.

dextrose 10 % infusion

40 mL/hr, intravenous, continuous PRN, other, For disruption of TPN therapy.

Start 10% dextrose IV prior to initiation or during any interruption in TPN at the previous TPN rate up to a MAXIMUM rate of 40 mL/hr.
