Capture and Review Patient Photos and Media
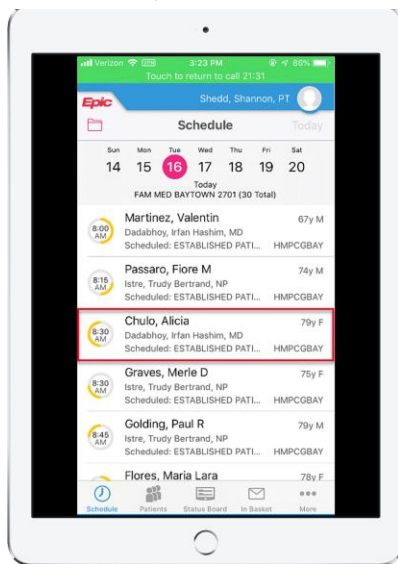

Audience: physicians, mid-level providers, nurses, and other clinical support staff
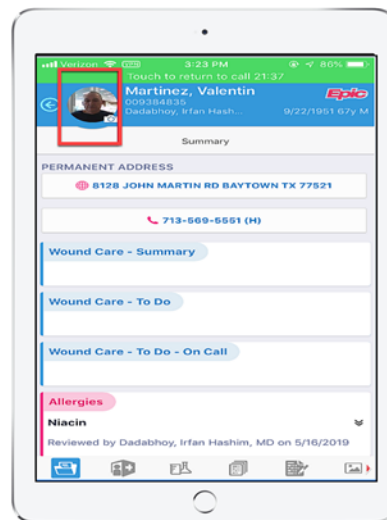

Below are the steps to capture images in Haiku/Canto
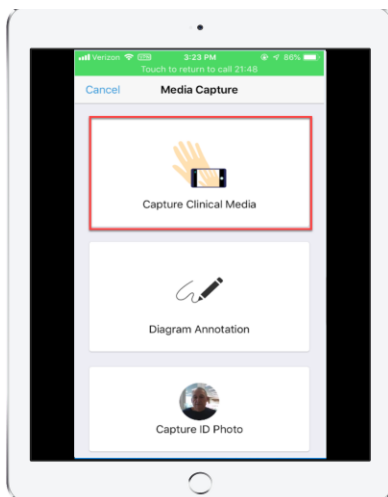

Capture clinical images

1. Select a patient from the **Schedule/Patient List.**

2. Tap on the patient's picture at the top of the screen.

3. In the Media Capture activity, tap **Capture Clinical Media** and use the camera on your device to take a picture.

4. After taking a picture. Tap **Use Photo.**

5. Select a Document Type, if necessary, add a Description. When complete you can add another picture or save.

6. Tap **Save**. You can review media captures in the Media Manager or the Chart Review activities in Hyperspace.

Review clinical images and media

1. In the patient's chart, tap .
2. Scroll through the list of media files or, to find a specific media file, search using information such as:

   □ Document type
   □ The user who imported the file
   □ Keywords from the image's description
   □ The date the file was imported

3. Tap a photo or document to see a full-screen view, where you can zoom in and out or pan around the image.
