

Dragon Default Set Up: PowerMic as Default Recording Device Webcam Audio as Default Communication Device

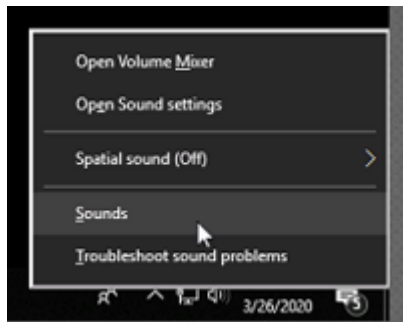

Audience: All Providers

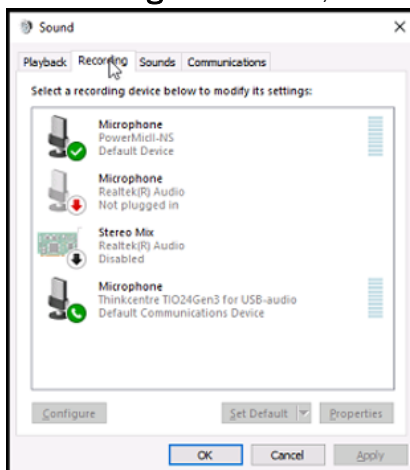

Set up your Nuance Dragon PowerMic as your default recording device and Webcam audio as your default communication device.

Setting Nuance Dragon PowerMic as Default Recording Device and Webcam Audio as Default Communication Device

1. Right click speaker  on bottom right of taskbar.
2. Click **Sounds**.

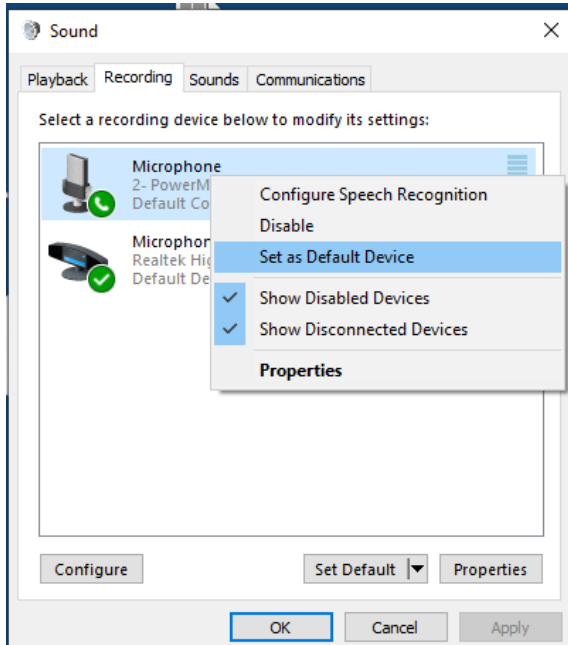

3. Select **Recording** to see a list of recording devices (see screenshot below). If you are using **PowerMic NS** for **Dragon** dictation, make sure **PowerMic NS** is set as your default device.
