

Risperdal Consta® (risperidone) for Schizophrenia and Bipolar I Disorder [3750]

General Ordering Restrictions:

1. Risperdal Consta® is restricted to psychiatry service lines only.
2. Each injection must be administered by a health care professional.
3. Oral Risperdal® (or another antipsychotic medication) should be given with the first injection of Risperdal Consta® and continued for 3 weeks (and then discontinued) to ensure adequate therapeutic plasma concentrations from Risperdal Consta®.
4. Patients with renal or hepatic impairment should be treated with titrated doses of oral risperidone prior to initiating treatment with Risperdal Consta®.
5. The maximum dose should not exceed 50 mg every 2 weeks for schizophrenia or Bipolar I Disorder.
6. Please allow 2 to 3 days for product shipment and availability.

Medications

Provider attestations (All three conditions MUST be met) (Single Response) (Selection Required)

1. I attest that the patient has previously tolerated oral risperidone prior to initiating treatment with Risperdal Consta® or is actively receiving treatment with Risperdal Consta®.
2. I attest that the patient's insurance provider has given financial approval to continue Risperdal Consta® therapy after hospital discharge.
3. I attest that the patient will have adequate access to medical treatment for continuation of Risperdal Consta® therapy after hospital discharge.

Yes, all three conditions have been met. (Single Response) (Selection Required)
