

HUDDLE NOTES

IV Pump Integration - HMCCH

Sept. 19, 2022

Overview

- On **Monday, Nov. 14**, we'll begin seamlessly integrating IV pumps with Epic at HMCCH for better patient outcomes, improved patient safety and more efficient documentation.
 - IV Pump integration is easy to use, with fewer buttons to click and automated documentation of infusion start/stop times.
 - Allows you to spend less time documenting and more time caring for patients when administering IV infusions.
 - Reduces the need to manually search for, enter and document IV med details.
 - Documentation will be more detailed and precise, enabling better patient outcomes.
 - Decreases errors when managing complex IV infusions and improves patient safety.
- **HMCCH IV Pump Launch In Scope Units:**
 - Med/Surg (2 East, 2 South)
 - ICU (2 West)
 - HMH Jones LTACH
- For more information, visit it.houstonmethodist.org/ivpump or contact **Richard Hart** (rhart2@houstonmethodist.org), Hasnaa Diraoui (hdiraoui@houstonmethodist.org) or **Epic Training** (epictraining@houstonmethodist.org).

Classroom Training and Support

- Classroom-based training is required of all nurses on impacted units. Training begins on **Monday, October 3** and the deadline to complete is **Friday, October 28**.
- Training is held in the **Maple Computer Room**. Course are interactive, hands-on and last approximately **two hours**.
- **Epic IV Pump Integration Training** courses have been assigned in LMS for impacted staff. Nurses need to register for specific sessions by course ID in LMS.
 - **Critical Care/ICU Departments** – Course ID 1594004
 - **All Other Depts** – Course ID 1589055
- Tip sheets and other education resources are available in your Epic Learning Home. Press **F1** on your keyboard while logged into Epic to access.
